**Quick Reference Guide**

# Thank you!

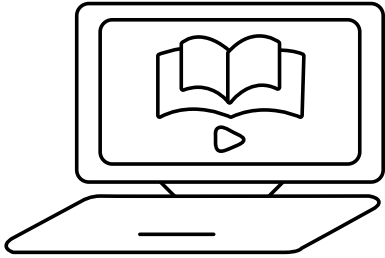

---

We're very excited you've purchased our Model Y DIY Front PPF Kit! We've spent hundreds of hours in research and development to ensure you can protect your Tesla easily and affordably. However, this is only possible because of your support! Our mission has always been to help Tesla owners customize, protect and maintain their vehicles by making products that are innovative and easy to install. I hope you enjoy our kit and we look forward to hearing from you.

## HOW TO GET HELP

Go to the TESBROS Support page to get help from our in-house PPF experts. Have a question? We'll walk you through so you can protect your Tesla!

# Slip Solution

---

- 1** **STEP ONE**  
Rinse out the **Blue Bottle**.

- 2** **STEP TWO**  
Fill the bottle up to 1000ML with distilled water.

- 3** **STEP THREE**  
Measure 5ML of soap out Slip Solution container with Syringe.

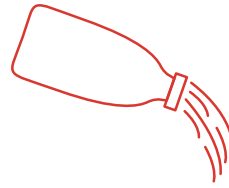

- 4** **STEP FOUR**  
Drop the soap in the bottle.

- 5** **STEP FIVE**  
Don't shake. Give it a few swirls and toss up and down a couple of times.

# Tack Solution

---

- 1** **STEP ONE**  
Rinse out the **Red Bottle**.

- 2** **STEP TWO**  
Pour distilled water until it reaches 800ML

- 3** **STEP THREE**  
Fill the bottle up to 1000ML with the isopropyl alcohol.

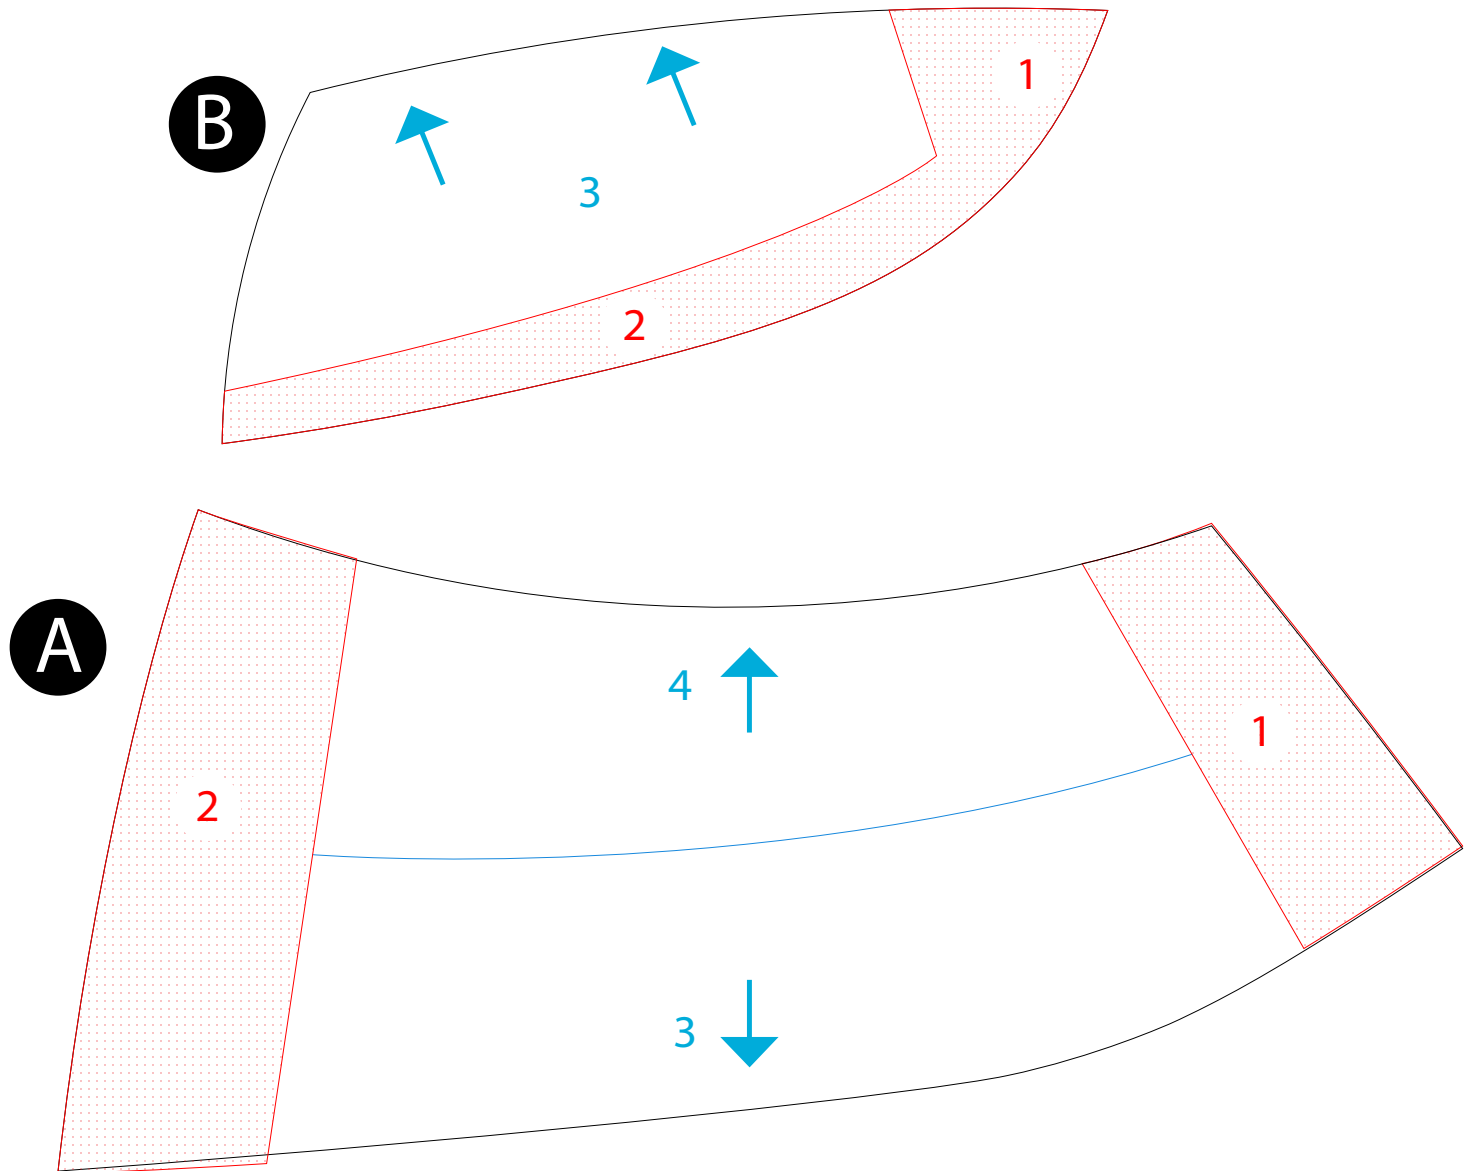

- 4** **STEP FOUR**  
Don't shake. Give it a few swirls and toss up and down a couple of times.
